By Resolution No. 94-050, on February 8, 1994, the Riverside County Board of Supervisors established the Riverside County Waste Resources Management District and transferred the responsibilities of the Waste Management Department to the Waste Resource Management District. All necessary requirements for conveyance of the land have been completed. Conveyance of the Edom Hill Landfill to the Riverside County Waste Resource Management District without reversionary interests is consistent with current Bureau planning for this area and would be in the public interest. 1. Provisions of the Recreation and Public Purposes Act and applicable regulations of the Secretary of the Interior.
2. A right-of-way to the United States for ditches and canals pursuant to the Act of August 30, 1890 (43 U.S.C. 945).
3. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.
4. Those rights for power transmission line purposes granted to Southern California Edison Company, its successors or assigns, by right-of-way CACA-15528, pursuant to the Act of October 21, 1976, as amended (43 U.S.C. 1761).
5. The patentee shall comply with all Federal and State laws applicable to the disposal, placement, or release of hazardous substances.
6. The patentee shall indemnify and hold harmless the United States against any legal liability or future costs that may arise out of any violation of such laws.
7. No portion of the land covered by such patent shall under any circumstances revert to the United States.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all forms of appropriation under the public land laws, including the general mining laws, except for lease or conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws.
